CYBER TRAINING MEETS REAL-WORLD CHALLENGES

BlackPerl's Content is always kept updated based on industry trend and attack landscape to inject education at early stage

ABOUT OUR COMPANY

A BRIEF STORY ABOUT THE COMPANY

BlackPerl is committed to providing industry-leading managed detection & response, security operations and engineering service with augmented cybersecurity training programs. We lead our projects with a mindset that we train our clients too at the stage of delivery.

We believe in equal learning opportunities around the world. Our qualified instructors design courses that are easily accessible to everyone. You can download free resources during each course for better learning. We are dedicated to bring more courses so you can have a larger variety of courses to choose from.

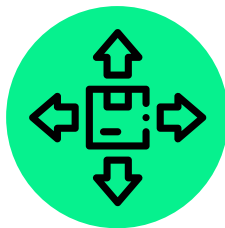

Founded in 2022

By Industry experts in India, Bangalore

Offices in

HQ- India, Bangalore

Expansion in

US, Texas
Bahrain & Australia

Experience

Collective experience of 100+ years in Cybersecurity

30+

Clients and Alliances
3000+ Students Trained

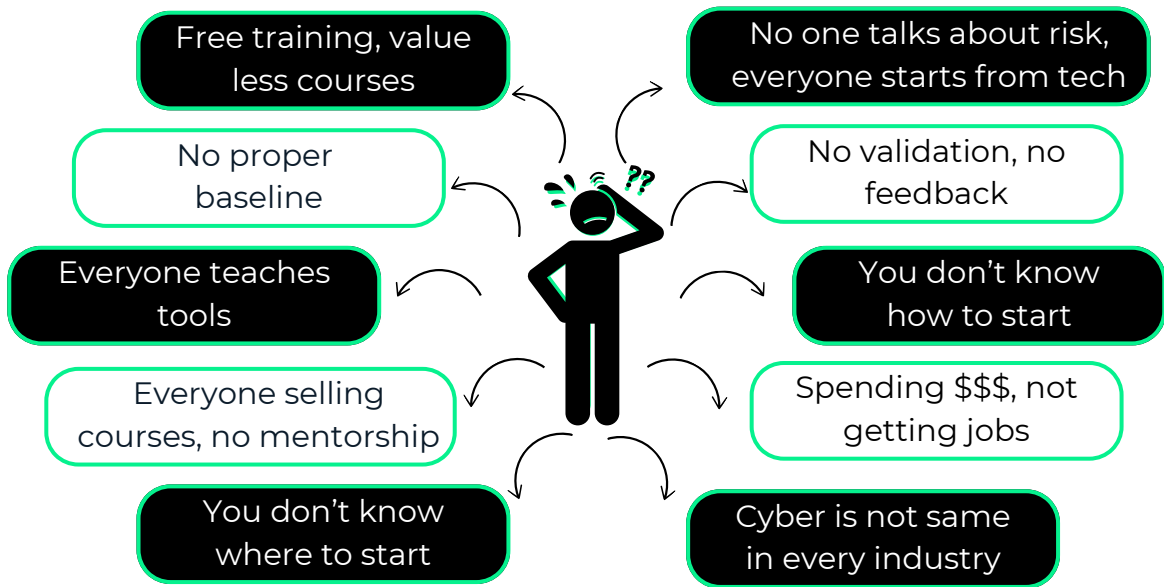

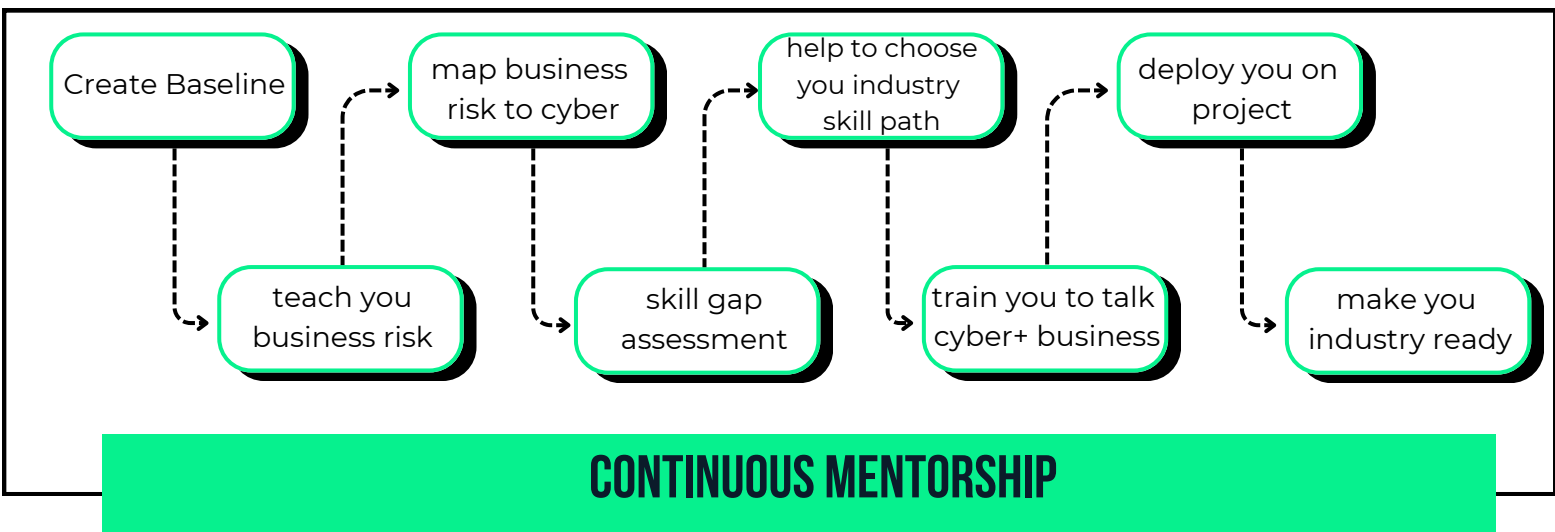

OUR MISSION

BlackPerl is committed to make you job ready from Day1

CONTINUOUS COMPLIANCE SERVICES

SOC/MDR as a Service

24*7 Monitoring, Alerting, Reporting, Log retention, Compliance, Contextualised Threat Intel as your extended team or MSSP. Custom built, complete control and visibility.

SOC CoE

SOC CoE assessment is designed to provide a holistic view of the SOC's performance, identify gaps, and recommend actionable improvements.

Vulnerability & Patch Management

Streamline security with end-to-end vulnerability assessments and swift patch deployment to minimize risks and maintain compliance.

Governance & Compliance

Our experts assist with compliances - like RBI, SEBI, CERT-In, Privacy Act, and more. Count on us for seamless adherence to evolving regulations.

PERIODIC SERVICES

PENETRATION TEST

Vulnerability Assessment & Penetration Testing (VAPT)

Identify and exploit vulnerabilities across your network, applications, and systems with our comprehensive VAPT services, enhancing your security posture through rigorous testing.

Red Teaming

Simulate sophisticated cyberattacks against your organization to test the resilience of your security protocols and response strategies, with our expert Red Teaming exercises.

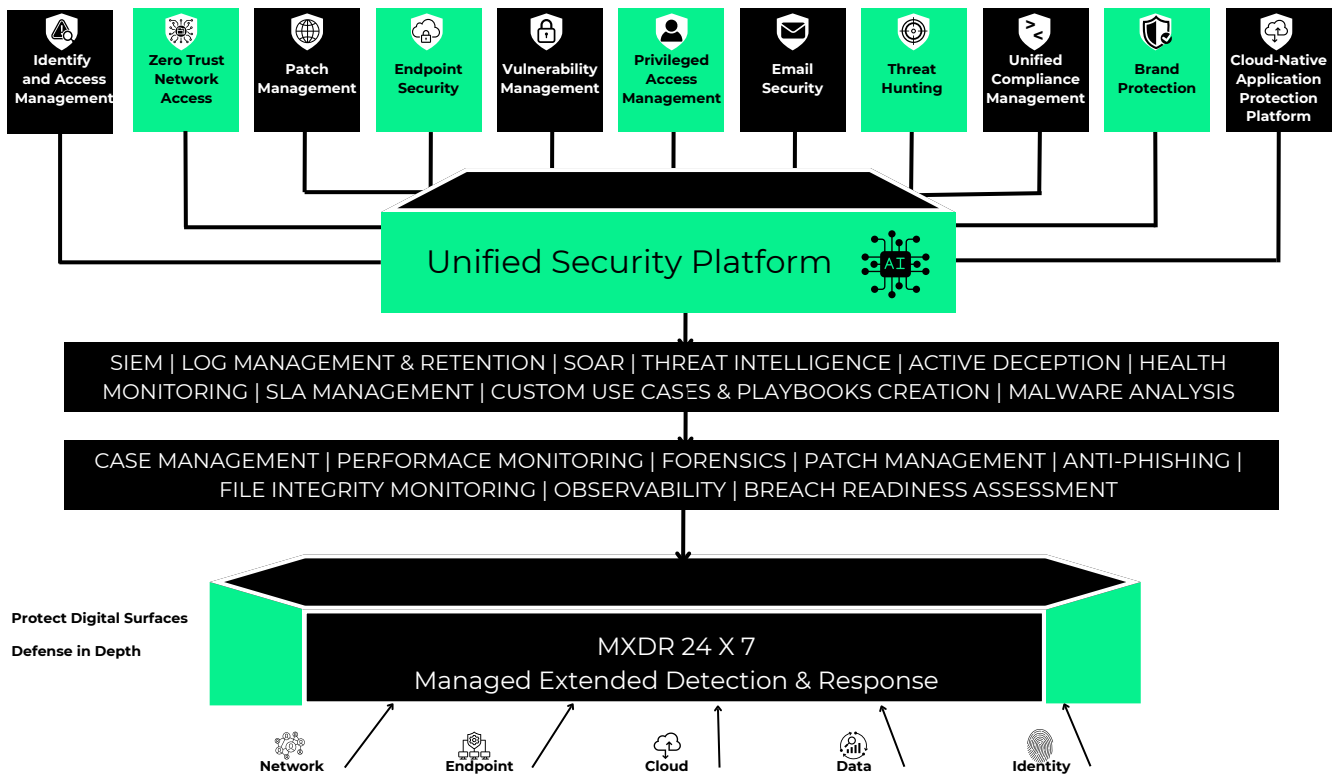

Digital Forensics and Incident Response (DFIR)

Incident response expertise on standby to get you back on business. Rapid response SLAs that mitigate the overall impact of a breach.

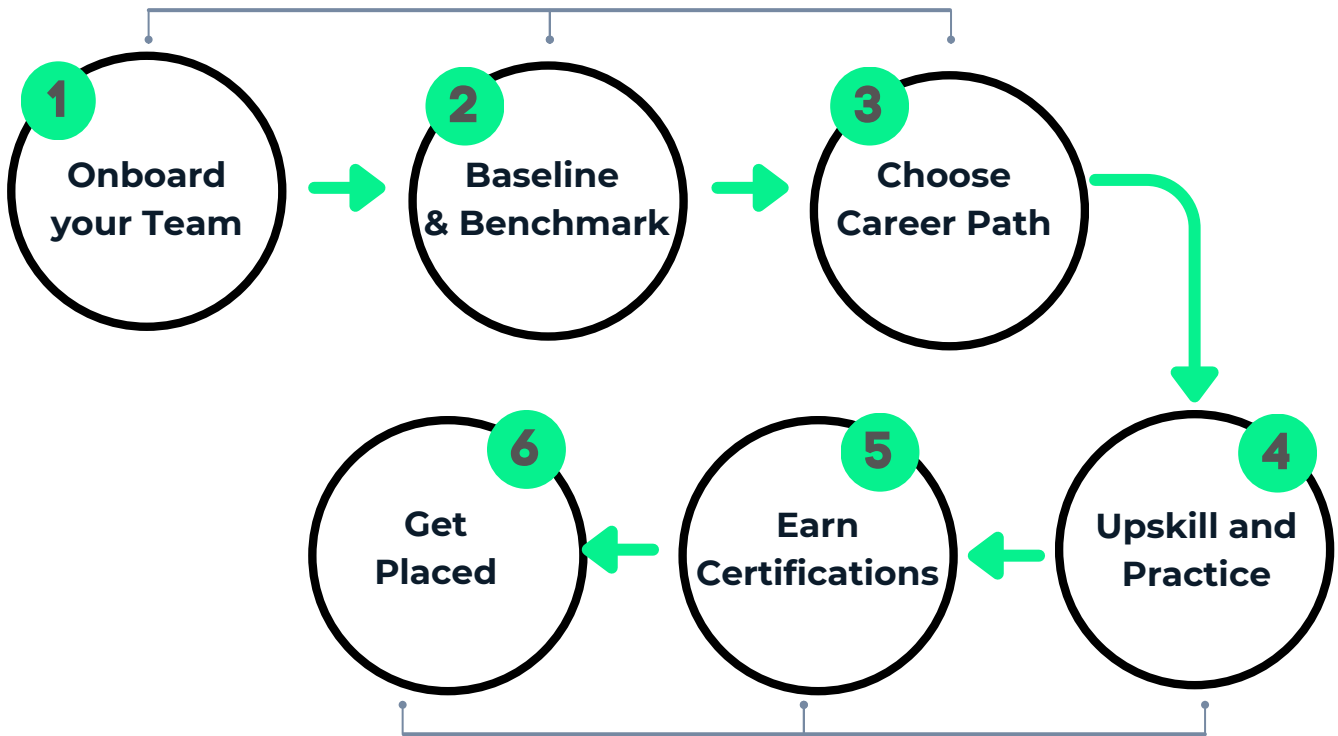

Breach Readiness Assessment

Evaluate your organization's preparedness for cyber incidents with our Breach Readiness Assessment, identifying gaps in your defense mechanisms and providing actionable recommendations.

UPSKILLING YOUR TEAM? CHOOSE OUR BUSINESS SUIT.

WHY CHOOSE US?

SHORT STORY ABOUT BENEFITS

1. Get Access of 100% updated content based on Industry demand.
2. Our delivery method is not one-way. We will make sure you do things, and we are with you in this whole process.
3. You will talk and interact Live with world-class Cloud Security expertise.
4. We will track your progress and support you to upskill.
5. Placement and Internship Opportunity.

1

Continuous Update

BlackPerl's Content is always kept updated based on industry trend and attack landscape to inject education early

2

2 Way Delivery Model

You as student will interact with our instructor through teach back session to ensure 100% effectiveness

3

Expert Staffing

BlackPerl sources top-tier cybersecurity talent globally to handle complex technologies effectively

4

Learn by Doing

You will perform Hands-on our real engagement and thus you will learn by doing things and by conventional way of learning

5

Revolutionary Pricing Model

BlackPerl's transparent pricing model is outcome-based, allowing clients to clearly justify their security expenditures and achieve superior efficiency.

You are in Full Control

100% Updated Content

Industry Focused

No Maintenance

The Best ROI

Enable Real Engagement Experience

Live Interaction with Cyber Leaders
